PROFESSIONAL DESIGN

CONVENIENT OPERATION

INTELLIGENT MANAGEMENT

FEATURES

- **Professional Design:** P10 is an Ultra-thin design and modern appearance. The display with high definition could enhance brand recognition.
- **Convenient Operation:** Operation is fast, no delay, and more sensitive to the user. The guidance of words, animated pictures, and sound could make users operate easily. Multi-function design could improve service efficiency.
- **Intelligent Management:** Connecting with the customer management system, makes the user check the order easily. With large memory, more history data can be quickly queried locally.
